The new workplace is trauma-informed

Trauma-Informed Workplaces **Are the New Normal**

Ilbeing a business priority.

Leaders Mortined workplaces

Tou are nere: Mealth and Mealing / Coronavirus (COVID-17) / Now More than Ever, we need to Create Trading Antorined workplaces

Now More than Ever, We Need to Create Trauma-Informed Workplaces Associate Director of Field Building - Research & Policy Division

WHY FOCUS ON WELL-BEING RATHER THAN LIFE/WORK BALANCE?

- ☐ Many people (especially in human services) do not view their work as separate from their lives
- ☐ Employees are more productive, motivated, less stressed
- ☐ Workplaces with reputations for promoting well-being are able to recruit a wide variety of candidates, have better retention
- More important than ever during and since the COVID-19 pandemic, staff are working longer hours, juggling work while caring for children or other dependents, experiencing their own primary or secondary trauma

Specific Actions for Leaders

- ☐ Communicate trust. Be vocal about your support of schedule flexibility.
- □ Acknowledge every employee is different. Talk with your direct reports about their needs and be mindful of their personal circumstances.
- □ Focus on productivity, rather than hours. Some days employees need to put in long hours, but this can be offset by the days when they don't need to do a full 8 hours
- ☐ *Encourage breaks.* Encourage employees to take breaks during the day.

Specific Actions for Leaders (cont.)

- ☐ *Encourage time off.* Taking time off is essential to prevent burnout.
- □ Consider social events (with virtual option if necessary). Celebrate accomplishments, birthdays, anniversary dates, etc
- ☐ MODEL THE BEHAVIOR. Leaders should demonstrate their commitment by modeling behaviors.
- □ Foster team commitment to promote a culture of care.

Policy and Administration Portfolio Retreat and Team Covenant

We are committed to a healthy work culture where we:

- model resilience and take time to rest and reset when needed
- speak respectfully to and about each other in all contexts
- encourage robust dialogue where honest opinions, probing questions, and potential solutions can be freely shared
- Celebrate and recognize each other's accomplishments

We understand that things will go wrong. When they do, we will:

- >> practice self-compassion
- >> lead with empathy and practice grace
- >> learn from our mistakes without blame

Agency-Wide Efforts

- ☐Set aside and protect specific periods of time when there would be no meetings—ex. "Quiet Work Wednesdays"
- Allow time to reset (meditate, breathe, walk around, stretch) after complex and stressful meetings
- ☐ Schedule meetings to end ten minutes before the hour or five minutes before the half-hour to get fresh air, stretch, eat, hydrate, etc.

Agency-Wide Efforts (cont.)

- ☐ Limited e-mails sent after hours (ex. 6pm)
 - -Schedule non-urgent emails for the next morning
 - -Text or call if something is urgent
- ☐ Utilized recognition programs and opportunities to express gratitude.
- ☐ Made an official and formal commitment to being a trauma-informed, healing and well-being focused workplace by creating the Office of Trauma and Resilience Policy

The Office of Trauma and Resilience Policy (OTRP)

VDSS Office of Trauma and Resilience Policy

Background

☐ Helping Everyone Access Linking Systems)
 ☐ Linking Systems of Care State Demonstration Project (2015-2021)
 ☐ Goals:
 ☐ Screen children and youth for trauma
 ☐ Provide children, youth, and families comprehensive and coordinated services to fully address their needs
 ☐ Establish policy and practice to sustain this approach long-term

VDSS Office of Trauma and Resilience Policy

Purpose

Infuse and sustain trauma-informed and healing-centered knowledge and skills into VDSS culture, policies, and practices by supporting other divisions;

SOCIAL SERVICES

- ☐ Foster collaboration with state stakeholders to align and coordinate efforts;
- ☐ Engage with local partners and communities to promote resilience and healing in children, families, and individuals.

Office of Trauma and Resilience Policy

Projects Underway

- ☐ State-Agency Trauma-Informed Leadership Team (TILT)
- ☐ Trauma-Informed Community Network Support
 - ☐ Statewide Public Awareness Campaign
 - ☐ Healing-Centered Organizations Learning Collaborative
- ☐ Vicarious Trauma Research Project
- ☐ LEx Engagement Community of Practice
- ☐ VDSS Hope and Resilience Transformation Team (HARTT)
- ☐ Science of Hope Framework
- ☐ TA for Implementing Virginia HEALS Trauma-Informed Model of Service Delivery

Science of Hope

Hope is the belief that your future will be better than today, and you have the power to make it so.

The Simplicity of Hope

Goal setting is the cornerstone of hope.

Pathways refers to the ability to identify routes toward goals and to find new routes (problem solve) around obstacles if necessary.

Agency (Willpower) is the ability to sustain motivation to move along these pathways.

Science of Hope

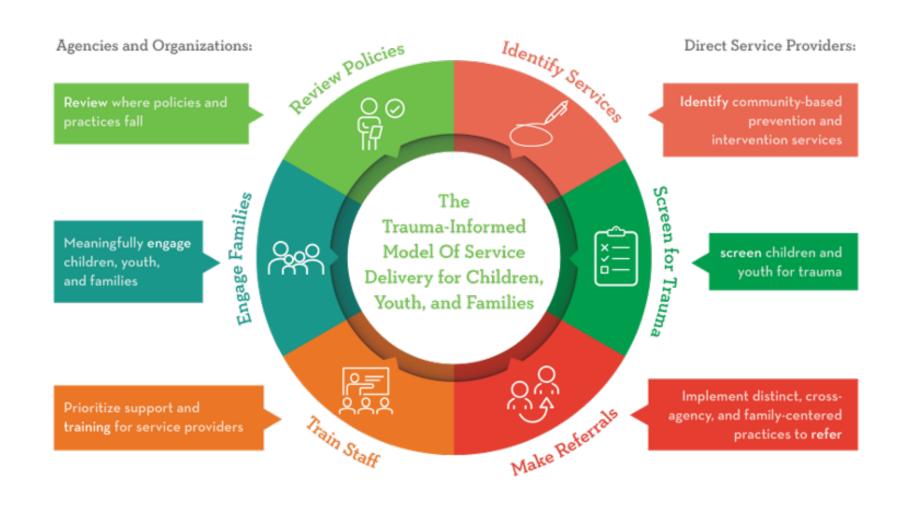

Outcomes at an Organization Level

- >> Increased employee engagement
- >> Increased employee satisfaction
- >> Increased Retention

Virginia HEALS Trauma-Informed Model of Service Delivery

Virginia HEALS Toolkit

- ☐ Trauma-Informed Agency Self-Assessment **Grant Application Development Menu for Funders Community Resource Mapping Facilitation Guide***
- Family Engagement Guide*
- Screening for Experiences and Strengths (SEAS)*
- ☐ Referral and Response Protocol*

*e-Learning Modules to go with resources

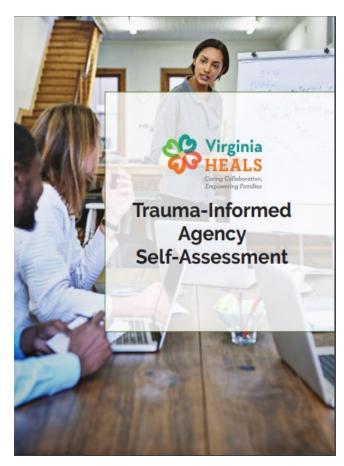

http://virginiaheals.com

Trauma-Informed Agency Self-Assessment

- 1. Leadership and Mission
- 2. Management and Supervision
- 3. Policy
- 4. Environment
- 5. Accessibility
- 6. Engagement [Youth and Family]
- 7. Cross-System Collaboration
- 8. Screening, Assessment, and Treatment Services
- 9. Training and Workforce Development
- 10. Evaluation and Quality Assurance

Community Resource Mapping Facilitation Guide

- ☐ Step-by-step "playbook"
- ☐ 3-hour process
 - □Virtual or live
- ☐ Multi-disciplinary group of stakeholders
 - ☐ Leadership and front line
- ☐ End goal of identifying community-based resources

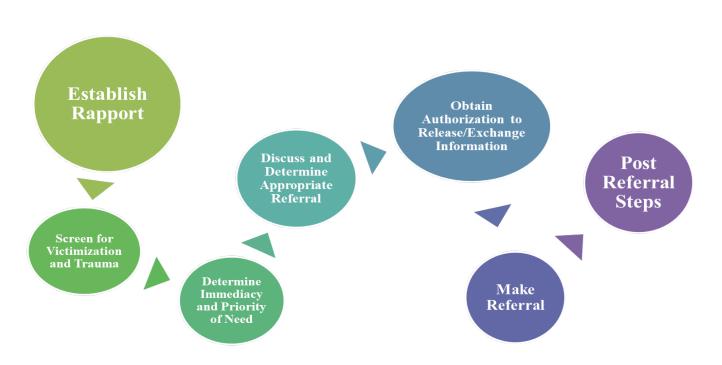

Screening for Experience and Strengths (SEAS)

- □ BRIEF screening tool for trauma and victimization designed to identify the need for further assessments and/or referrals
- □ Accessible across systems to identify trauma among children/youth up to the age of 21
- **☐** Evidence-informed
- Available in English and Spanish
- ☐ Three primary sections
 - Experiences
 - Reactions
 - Protective Factors

Referral and Response Protocol

- ☐ Two sections
 - □ Program and Community Components (supervisors/managers)
 - ☐ Elements of Referral and Response (front line staff)
