

STANDARDIZED SERVICE NAMES

CSA Purchased Services

JUNE 2014

Technical Edits JANUARY 2015, JULY 2016

Additional Services Added FEBRUARY 2020

Acute Psychiatric Hospitalization³

Inpatient services that are generally short term and in response to an emergent psychiatric condition. The individual experiences mental health dysfunction requiring immediate clinical attention. The objective is to prevent exacerbation of a condition and to prevent injury to the recipient or others.

Applied Behavior Analysis³

ABA is the design, implementation, and evaluation of environmental modifications to produce socially significant improvement in human behavior. ABA includes the use of direct observation, measurement, and functional analysis of the relations between environment and behavior. ABA uses changes in environmental events, including antecedent stimuli and consequences, to produce practical and significant changes in behavior.

Assessment/Evaluation³

Service conducted by a qualified professional utilizing a tool or series of tools to provide a comprehensive review with the purpose to make recommendations, provide diagnosis, identify strengths and needs, risk level, and describe the severity of the symptoms.

Case Support

Service may be purchased from a public child serving agency and includes basic case oversight for a child not otherwise open to a public child-serving agency, for whom a case manager is not available through the routine scope of work of a public child-serving agency, and for whom the worker's activities are not funded outside of the State Pool. Services may include administration of the CANS, collection and summary of relevant history and assessment data and representation of such information to the FAPT; with the FAPT, development of an IFSP; liaison between the family, service providers and the FAPT.

Crisis Intervention³

Crisis intervention services are mental health care services, available 24 hours a day, seven days per week, to provide assistance to individuals experiencing acute mental health dysfunction requiring immediate clinical attention. The objectives are: to prevent exacerbation of a condition; to prevent injury to the individual or others; and to provide treatment in the least restrictive setting.

Crisis Stabilization³

Crisis Stabilization services are direct mental health care services to non-hospitalized individuals experiencing an acute crisis of a psychiatric nature that may jeopardize their current community living situation. The goals are to avert hospitalization or re-hospitalization; provide normative environments with a high assurance of safety and security for crisis intervention; stabilize individuals in psychiatric crisis; and mobilize the resources of the community support system, family members, and others for ongoing maintenance, rehabilitation, and recovery.

Family Partnership Facilitation

Service is provided by a trained facilitator to conduct a Family Partnership Meeting. The meeting is a relationship focused approach that provides structure for decision making and that empowers both the family and the community in the decision making process. It extends partnership messages to caregivers, providers and neighborhood stakeholders.

Family Support Services

A broad array of services targeted to provide assistance, support, and/or training in various community settings to build natural supports and functional skills that empower individuals and families towards autonomy, attaining and sustaining community placement, preserving the family structure, and assisting parents in effectively meeting the needs of their children in a safe, positive and healthy manner. The services may include but are not limited to skill building (parenting skills, fiscal management, coping skills, communication, interpersonal skills, supervised visitation, babysitting, non-foster care/maintenance day care etc.) and behavioral interventions.

Functional Family Therapy (FFT)

Is a short-term, community- and evidence-based intervention for youth ages 11-18 with various emotional and behavioral problems. FFT must be delivered by trained and certified practitioners meeting national FFT standards.

Independent Living Services

Services specifically designed to help adolescents make the transition to living independently as an adult. Services include training in daily living skills as well as vocational and jobtraining.

Independent Living Stipend²

Payments made to youth previously in foster care who are now in independent living arrangements for the purposes of payments for housing, food, etc.

Individualized Support Services

Support and other structured services provided to strengthen individual skills and/or provide environmental supports for individuals with behavioral/mental health problems. Services are based on the needs of the individual and include training and assistance. These services normally do not involve overnight care by the provider; however, due to the flexible nature of these services, overnight care may be provided on an occasional basis. Service includes "Supportive In-home Services" licensed by the Department of Behavioral Health and Developmental Services.

Intensive Care Coordination

Services, as defined by State Executive Council policy, conducted by an Intensive Care Coordinator for children who are at risk of entering or who are placed in residential care. ICC providers must be trained in the High Fidelity Wraparound model of care coordination and receive weekly clinical supervision. The purpose of the service is to safely and effectively maintain the child in, or transition/return the child home, to a relative's home, family-like setting, or community at the earliest appropriate time that addresses the child's needs. Services must be distinguished as above and extend beyond the regular case management services provided within the normal scope of responsibilities for the public child serving agencies. Services and activities include: identifying the strengths and needs of the child and his family through conducting comprehensive family-centered assessments; developing plans in the event of crisis situations, identifying specific formal services and informal supports necessary to meet the identified needs of the child and his family, building upon the identified strengths; implementing, regular monitoring of and making adjustments to the plan to determine whether the services and placement continue to provide the most appropriate and effective services for the child and his family.

Intensive Care Coordination Family Support Partner

A family support partner is part of the High Fidelity Wraparound (HFW) team that offers various levels of support for families based on the family's needs and HFW plan. The support partner works closely with the HFW Facilitator to support positive outcomes for the family.

Intensive In-Home Services³

IHH services for Children/Adolescents under age 21 are intensive, time-limited interventions provided typically but not solely in the residence of a child who is at risk of being moved into an out-of-home placement or who is being transitioned to home from out-of-home placement due to documented clinical needs of the child. These services provide crisis treatment; individual and family counseling; and communication skills (e.g. counseling to assist the child and his parents to understand and practice appropriate problem-solving, anger management, and interpersonal interaction, etc.); and coordination with other required services. Service also includes 24-hour emergency response.

Maintenance – Basic²

Payments made on behalf of a child in foster care to cover the cost of (and the cost of providing) food, clothing, shelter, daily supervision, school supplies, a child's personal incidentals, liability insurance with respect to a child, and reasonable travel for the child to visit with family or other caretakers and to remain in his or her previous school placement.

Maintenance – Clothing Supplement²

Payments, as determined and scheduled by VDSS, for clothing outside of basic maintenance for children in foster care.

Maintenance - Child Care Assistance

Provides daily supervision during the foster parents' working hours when the child is not in school, facilitates the foster parent's attendance at activities which are beyond the scope of "ordinary parental duties," and is provided in a licensed day care facility or home.

Maintenance – Enhanced²

The amount paid to a foster parent over and above the basic foster care maintenance payment. Payments are based on the needs of the child for additional supervision and support by the foster parent as identified by the VEMAT.

Maintenance – Transportation²

In accordance with Title IV-E and Fostering Connections regulations, payments made to support a child/youth in foster care. Includes: visits to family including parents, relatives and siblings; costs for the child to be transported to a non-resident/non-zone school in accordance with a best interest determination. Costs may include purchased contracted services, cost of the child's bus/plane tickets; or mileage (at the state rate) for a driver to transport the child.

Material Support

Payment for items or services for families when such assistance is not otherwise available but is necessary to prevent an out of home placement of a youth or assist with reunification. Payments may include, but are not limited to, support with housing and utilities costs.

Mental Health Case Management³

Mental health case management is defined as a service to assist individuals with behavioral/mental health problems who reside in a community setting in gaining access to needed medical, social, educational, and other services. Case management does not include the provision of direct treatment or habilitation services.

Mental Health Skills Building³

A training service for individuals with significant psychiatric functional limitations designed to train individuals in functional skills and appropriate behavior related to the individual's health and safety, activities of daily living, and use of community resources; assistance with medication management; and monitoring health, nutrition, and physical condition. These services are intended to enable individuals with significant mental illness to achieve and maintain community stability and independence in the most appropriate, least restrictive environment.

Mentoring

Services in which children are appropriately matched with screened and trained adults for one-on-one relationships. Services include meetings and activities on a regular basis intended to meet, in part, the child's need for involvement with a caring and supportive adult who provides a positive role model.

Motivational Interviewing (MI)

Is an evidence-based, outpatient counseling approach designed to promote behavior change. It is often combined with other counseling approaches. MI practitioners should have received specific train in the approach. MI may be employed with youth and adults.

Multisystemic Therapy (MST)

Is a short-term, community- and evidence-based intervention for youth ages 11-17 with various emotional and behavioral problems who are at risk of out of home placement and other serious negative outcomes. MST must be delivered by a team of trained and certified practitioners meeting national MST standards.

Other

A uniquely designed service, or one not otherwise named and defined, that will ensure the safety and well-being of a child at risk of or in an out of home placement, support family preservation, or enhance reunification efforts.

Outpatient Services³

Treatment provided to individuals on an hourly schedule, on an individual, group, or family basis, and usually in a clinic or similar facility or in another location (including the home). Outpatient services may include counseling, dialectical behavioral therapy, psychotherapy, behavior management, laboratory and other ancillary services, medical services and medication services.

Parent-Child Interaction Therapy (PCIT)

Is an outpatient parent training model focused on youth ages 2 – 7 years old and is designed to reduce problematic externalizing behaviors by increasing positive parenting behaviors and improving the quality of the parent-child relationship. PCIT is general conducted in weekly sessions in the office of the therapist. PCIT must be delivered by masters level trained and practitioners who have received specialized training and meeting national PCIT standards.

Private Day School⁴

Special Education services identified through an IEP in which the “least restrictive environment” is identified as a private day school. Services are provided in a licensed, privately owned school for persons determined to have a disability as defined by the *Regulations governing Special Education Programs for Children with Disabilities in Virginia*.

Private Foster Care Support, Supervision and Administration¹

Services provided by a Licensed Child Placing Agency (LCPA) which include, but are not limited to, recruiting, training, assessing and retaining foster parents for the LCPA; making placement arrangements; purchasing/ensuring child has adequate clothing; providing transportation; counseling with child to prepare for visits with biological family; providing support and education for LCPA foster parents regarding management of child’s behavior; providing ongoing information and counseling to child regarding permanency goals; preparing a child for adoption; 24/7 crisis intervention and support for both child and LCPA foster family; developing and writing reports for FAPT; attending and presenting at FAPT meetings; administering LCPA foster parent payments; identifying adoption placements; assessment of adoption placements; and arranging adoption placements. The provision of services will vary for each child based on that child’s specific needs and the identified level of care. Services are provided at non-treatment level of foster care as well as treatment levels of foster care.

Private Residential School^{4,3}

Residential education services provided to students with disabilities who are placed into a residential program through an IEP in which the “least restrictive environment” is identified as a private residential school. Includes all services identified in the IEP as necessary to provide special education and related services, including non-medical care and room and board.

Residential Education³

A component of the total daily cost for placement in a licensed level C residential treatment facility. These education services are provided in a licensed, privately owned and operated Level C residential treatment facility to a child/youth with or without an individualized education program (IEP) who has been placed for non-educational reasons.

Residential Room and Board^{1,3,5}

A component of the total daily cost for placement in a licensed congregate care facility. Residential Room and Board costs include room, meals and snacks, and personal care items.

Residential Case Management^{3,1,5}

A component of the total daily cost for placement in a licensed congregate care facility. Activities include maintaining records, making calls, sending e-mails, compiling monthly reports, scheduling meetings, discharge planning, etc.

Residential Daily Supervision^{3,1,5}

A component of the total daily cost for placement in a licensed congregate care facility. Activity includes around the clock supervision.

Residential Supplemental Therapies³

A component of the total daily cost for placement in a licensed Level C residential treatment facility. Activity includes a minimum of 21 group interventions (outside of the 3-5 group therapies lead by a licensed clinician). The 21 interventions are goal-based with clear documentation/notes regarding the goal addressed, the intervention used, the resident’s response/input, and plan for follow-up.

Residential Medical Counseling³

A component of the total daily cost for placement in a licensed Level C residential treatment facility. Activities include around the clock nursing and medical care through on-campus nurses and on-campus/on-call physician. Activities also include the doctor and nurse at every treatment planning meeting for resident.

Respite

Service that provides short term care, supervision, and support to youth for the purpose of providing relief to the primary care giver while supporting the emotional, physical, and mental well being of the youth and the family/guardian. This service includes respite services licensed by the Department of Behavioral Health and Developmental Services.

Special Education Related Services

Services identified within an IEP to be delivered to youth placed in private education schools. Services include, but are not limited to: occupational therapy, physical therapy, speech therapy.

Sponsored Residential Home Services³

A short-term residential treatment service provided in a private home which is supervised by a licensed provider. Providers arrange for, supervise, and provide programmatic, financial, and services support to sponsors providing care or treatment for individuals placed in the sponsors' homes.

Substance Abuse Case Management³

Substance Abuse case management assists children, adults, and their families with accessing needed medical, psychiatric, substance abuse, social, educational, vocational services and other supports essential to meeting basic needs. If an individual has co-occurring mental health and substance abuse disorders, the case manager shall include activities to address both the mental health and substance use disorders. Only one type of case management may be billed at one time.

Transportation

Transportation to support attainment of the goals in a child's service plan, either through contracted services or payment of mileage. Services may be designed to enable a child or family member to attend counseling, parenting classes, court, visitation with family members, or other appointments.

Trauma-Focused Cognitive Behavioral Therapy (TF-CBT)

Is a counseling approach for children and adolescents who have a variety of symptoms associated with exposure to trauma. The intervention also supports caregivers in implementing positive parenting skills and positive interactions with the child/adolescent. TF-CBT is typically delivered in an office setting over 12 – 16 weeks, although this may vary. TF-CBT is delivered by licensed mental health professionals who have received specific TF-CBT training and certification.

Therapeutic Day Treatment for Children and Adolescents³

Covered services are a combination of psychotherapeutic interventions combined with medication, education, and mental health treatment offered in programs of two or more hours per day with groups of children and adolescents.

Treatment Foster Care Case Management¹

A component of treatment foster care through which a case manager provides treatment planning, monitors the treatment plan, and links the child to other community resources as necessary to address the special identified needs of the child. TFC-CM focuses on a continuity of services that is goal-directed and results-oriented. The provision of services will vary for each child based on that child's specific needs and the identified level of care.

Utilization Review

Activities that provide oversight of purchased services. Activities of UR include review of IFSPs, review of services delivered by providers, review of a child or youth's progress toward goals, and the provision of recommendations for service planning and revision of service plans/goals.
