CSA PROGRAM AUDITS: Understanding Internal Controls and Strategic Planning in CSA Programs

Presented by
Stephanie Bacote and Annette Larkin
March 12, 2015

Purpose:

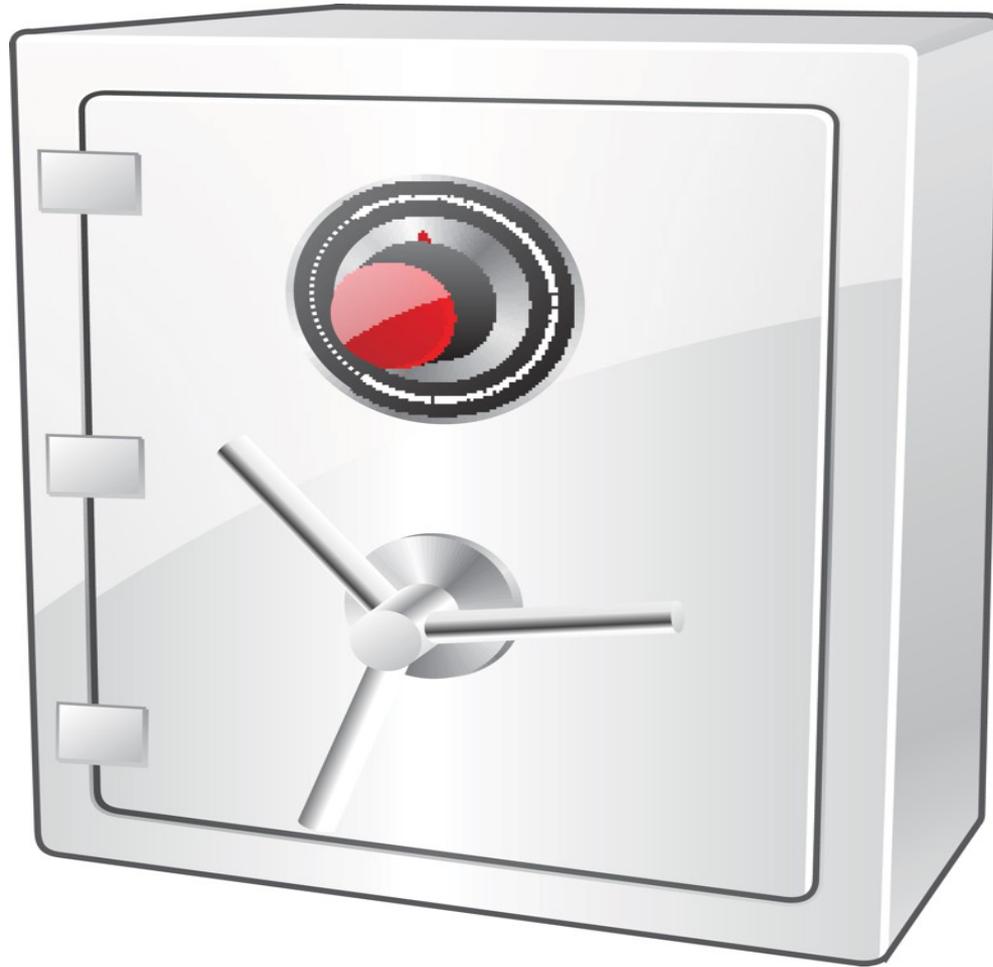

To educate participants on the definition of internal controls, the organizational responsibility for establishing an internal control structure, and the various types of control activities.

Objective:

In a classroom setting, participants will recognize their role in the internal control structure within their locally administered CSA program.

Understanding Internal Controls in CSA

What are Internal Controls?

Internal controls are steps taken to provide reasonable assurance that the following objectives are met:

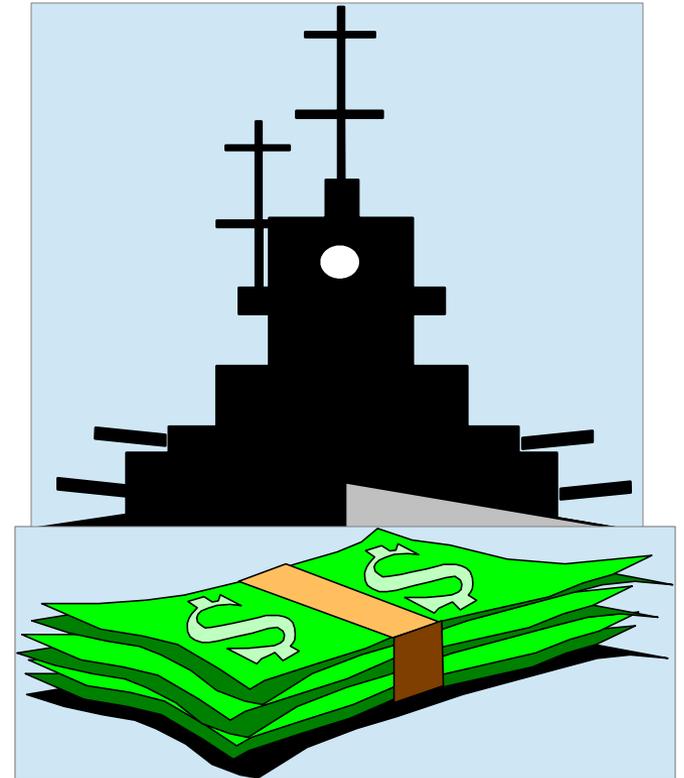

- Assets are safeguarded,
- Reliable information/data,
- Effective and efficient operations, and
- Compliance with applicable laws, regulations, policies, procedures, contracts, etc.

What are Internal Controls: Fundamental Concepts

1. Internal Controls are processes, a means to an end, not an end in itself.
2. Internal Controls are effected by people, not merely policy manuals and forms but people at every level of the organization.
3. Internal Controls are geared to the achievement of objectives.
4. Internal Controls can be expected to provide only reasonable assurance, not absolute assurance.

Reasonable Assurance

Cost of achieving the internal control objectives should not exceed its benefit

CATEGORIES of CONTROLS

Hard Controls

- Policy/procedures
- Organization structure
- Formal processes
- Centralized decision making

Soft Controls

- Competence
- Trust
- Shared values
- Strong leadership
- High expectations
- Openness
- High ethical standards

Segregation of Duties – Preventive

Authorization

Recording

Custody

Control Activities–Preventive

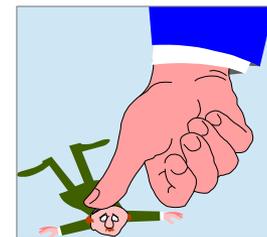

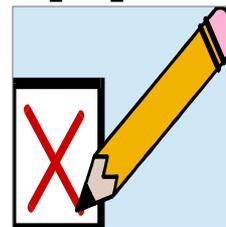

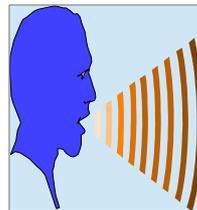

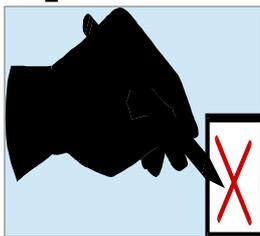

What needs to be approved?

- **Depends on the risk assessment.**
- **High risk activities should be approved by senior management.**
- **Approval means that the approver has reviewed the supporting documentation and is satisfied that the transaction is appropriate.**

Control Activities–

Preventive *Approvals*

**Certain activities or transactions
require supervisor approval.**

Control Activities– *Verification* Preventive

Be an **A-C-E** reviewer of reports

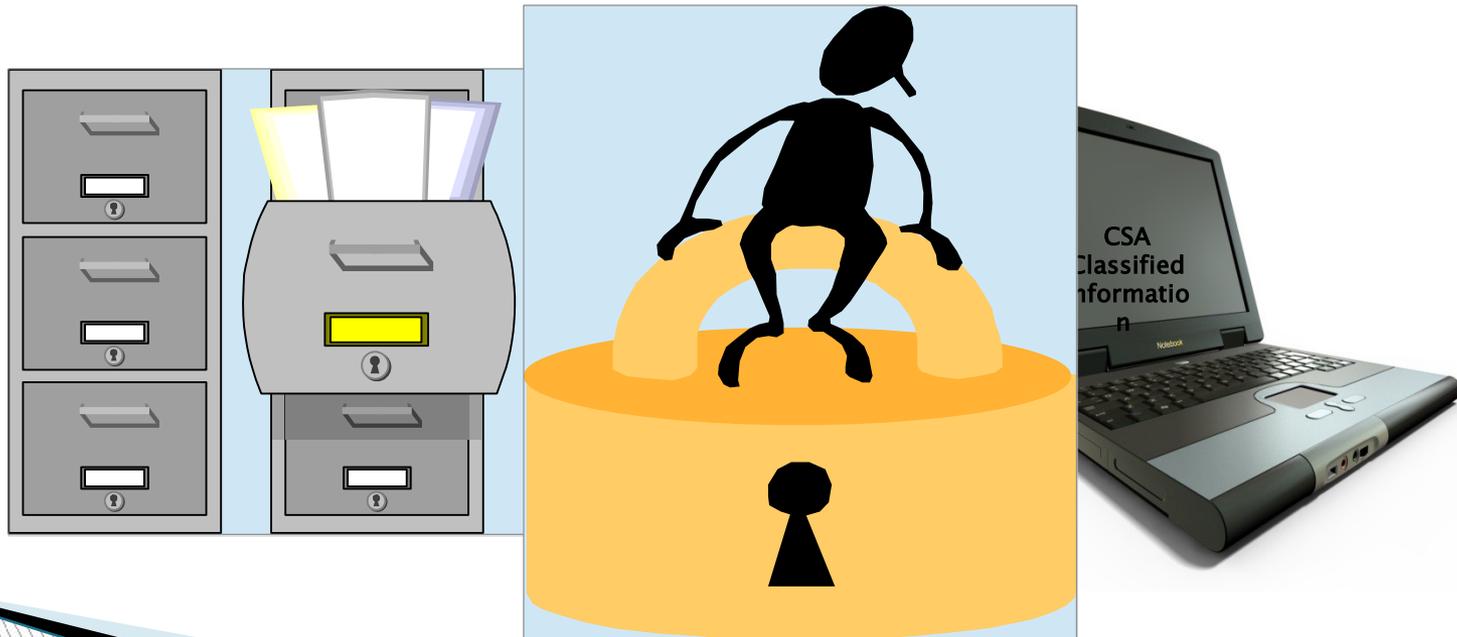

- ▶ Is the information **Accurate**?
- ▶ Is the information **Complete**?
- ▶ Are the operations **Efficient**?

Recent Audit Observations

CSA Program Audits

Recent Audit Observations

Internal Control Weakness vs. Non-Compliance Observation What's the Difference?

Internal Control Weakness		Non-Compliance Observation
Ineffective processes that may adversely impact the program's ability to achieve desired strategic, financial, operational, reporting, compliance, and stewardship objectives.	VERSUS	An organization's failure to fulfill specific requirements as stated in established laws, regulations, policies, and procedures.

CSA Program Audits

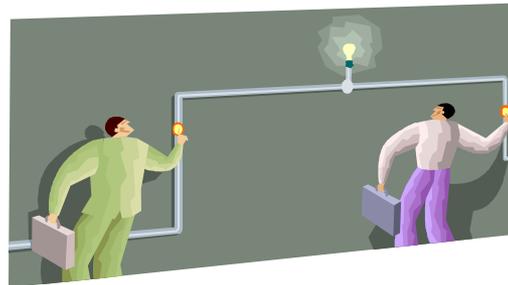

Recent Audit Observations

Internal Control Weakness vs. Non-Compliance Observation

Important to Remember

Non-compliance itself can be an internal control weakness.

SESSION

SUMMARY

CSA Program Audits

Summary – Internal Controls

- ▶ Internal controls are steps taken to provide reasonable , not absolute, assurance that organizational objectives are achieved.

- ▶ Cost of achieving the internal control objectives should not exceed its benefit

- ▶ *All STAKEHOLDERS* are responsible for compliance with internal controls

- ▶ Five components of Internal Controls:
 - Control Environment
 - Risk Assessment
 - Control Activities
 - Information and Communication
 - Monitoring
