ACCOUNTABILITY: LOCAL RESPONSIBILITY

By statute, <u>CPMT</u> is responsible – this means each local government is financially liable.

Every county, city, or combination of counties, cities, or counties and cities shall establish a community policy and management team (CPMT) in order to receive funds pursuant to this chapter.

Each such team shall be appointed by the governing body ...

• The CPMT members should be responsible to report to local governing body on a regular basis the activities of the Team.

The participating governing bodies shall jointly designate an official ...to act as fiscal agent for the team.

• Generally, one local government (if more than one locality comprises the CPMT) is selected to serve as fiscal agent. This locality is responsible for the financial management of the CSA funds.

The county or city that comprises a single team and the county or city whose designated official serves as the fiscal agent for the team in the case of joint teams shall annually audit the total revenues of the team and its programs.

 This is part of the local government's single audit requirement. If you are a member of a regional CPMT, your local share is included in your single audit.

The county or city that comprises a single team and any combination of counties or cities establishing a team shall **arrange for the provision of legal services to the team**.
