

OFFICE OF CHILDREN'S SERVICES

ADMINISTERING THE CHILDREN'S SERVICES ACT

The Children's Services Act (CSA, §2.2-2648 et seq) was enacted in 1993 to create a collaborative system of services and funding for at-risk youth and families.

The CSA establishes local multidisciplinary teams responsible to work with families to plan services according to each child's unique strengths and needs and to administer the community's CSA activities.

The Office of Children's Services (OCS) is the administrative entity responsible for ensuring effective and efficient implementation of the CSA across the Commonwealth.

Guiding principles for OCS include:

- Child and family directed care,
- Equitable access to quality services,
- Responsible and effective use of public funds,
- Support for effective, evidence-based practices, and
- Collaborative partnerships across state, local, public, and private stakeholders.

UTILIZATION OF RESIDENTIAL CARE UNDER THE CSA

Annual Report to the Governor and General Assembly, December 2020
In accordance with the Appropriation Act Chapter 1289 Item 292 (B)(2)(d)

Over the years, several strategies have been implemented to decrease children and youth placed in residential care settings. These strategies included implementing the *Children's Services System Transformation* initiative, a tiered, "incentive" match rate system in CSA designed to encourage serving children and youth in community-based settings, and the transition by Medicaid to a managed care approach to these services. In FY2020, the steady downward trend in the number of children served in residential care continued (overall decrease of 4% from FY2019), but the total CSA cost of these services increased by 5%. The number of youth in psychiatric residential treatment placements (PRTF) decreased by 7%, while those placements' costs increased by 4%. Group home (GH) placements decreased by 1%, while those placements' costs increased by 13%. Possible explanations of the changes in costs include increased lengths of stay (up 8% in GHs and 6% PRTFs) and increased cost of individual placements, perhaps due to a larger number of more costly out-of-state placements that are often not eligible for Medicaid reimbursement.
