## Office of Comprehensive Services Annual Report to the General Assembly

## Residential Care: Utilization Rates and Average Length of Stay Under the Comprehensive Services Act

December 2011

## Report Mandate

Language in the Appropriations Act, Chapter 890, Item 274. B.2.d, requires the following:

Pursuant to § 2.2-5200, Code of Virginia, Community Policy and Management Teams shall seek to ensure that services and funding are consistent with the Commonwealth's policies of preserving families and providing appropriate services in the least restrictive environment, while protecting the welfare of children and maintaining the safety of the public. Each locality shall submit to the Office of Comprehensive Services information on utilization of residential facilities for treatment of children and length of stay in such facilities. By December 15 of each year, the Office of Comprehensive Services shall report to the Governor and Chairmen of the House Appropriations and Senate Finance Committees on utilization rates and average lengths of stays statewide and for each locality.

#### Source of Information

Expenditure data included in this report are derived from local pool reimbursement requests. Demographic data are derived from "CSA Data Set" reports.

#### **Background**

The statutory purpose of the Comprehensive Services Act (CSA) is to create a system of services and funding for troubled youth and their families that is child centered, family focused, and community based. Increasing utilization of community based services to decrease reliance on restrictive, residential services is a key CSA performance measure.

Since 2008, several significant strategies have been implemented to decrease reliance on residential care as a service to youth. These strategies have included implementation of the *Children's Services Systems Transformation* initiative and implementation of a match rate system which provides financial incentive for local use of community based services.

In accordance with the CSA Service Categories and Data Set Definitions adopted by the State Executive Council, several different types of facilities are considered residential care. They include the following:

• Residential Treatment Facilities: Licensed residential care programs that provide 24-hour supervised care to groups of youth (e.g., secure residential treatment facilities, campus-style residential programs, group homes on the campus of a residential facility, and group homes that serve more than nine youths).

- <u>Group Homes</u>: Licensed residential programs that are characterized by a supervised homelike environment in a single family residence that serves groups of up to eight youth. Placements include apartments located in one complex where daily substitute parental supervision is provided and the programs are licensed as residential programs.
- <u>Temporary Care Facilities</u>: Licensed facilities or emergency shelters that serve groups of youth and are specifically approved to provide a wide range of services, as needed, on an individual basis not to exceed 90 days.

### **Funding**

The funding for residential care for youth served under the CSA may come from several sources. Federal funds, i.e., Medicaid and Title IV-E, may be used in combination with CSA funds to share the cost of placement. The expenditures reported below reflect expenditures for residential care paid through the CSA state pool.

CSA Net Expenditures for Residential Care by Reporting Fund Category

	FY09	FY10	FY11
Foster Youth Eligible for IV-E	\$7,401,168	\$4,927,364	\$4,287,413
Foster Youth Not Eligible for IV-E	\$47,749,534	\$31,619,851	\$30,207,095
CSA and DSS Non-Custodial Parent Agreements	\$11,010,056	\$11,605,503	\$9,458,608
Non-Mandated Youth	\$2,638,389	\$2,984,157	\$2,868,145
TOTAL	\$68,799,147	\$51,136,875	\$46,821,261

*NOTE:* Expenditures do **not** include the cost of educational services provided in the residential setting.

Attachment A provides CSA net expenditures for residential care by locality.

## **Number of Children Served**

The number of youth receiving residential care in each reporting service category is represented below:

Number of Youth Served by Residential Service Category

	FY09	FY10	FY11
Temporary Care Facility	137	93	190
Group Home	1,529	1,248	1,088
Residential Treatment Facility	1,896	1,331	1,269
TOTAL UNDUPLICATED COUNT	3,046	2,360	2,236

Youth placed in more than one residential service category are reflected in each setting.

Together the *Children's Services System Transformation* initiative and the match rate system have impacted upon the way in which services funded under the Comprehensive Services Act have been delivered to youth in the Commonwealth. While there has been increased use of Temporary Care Facilities, there has been a significant decrease in the total number of youth in residential care settings across the board.

Attachment B provides the total unduplicated number of youth receiving residential services by locality.

## **Length of Stay**

The length of stay is determined based upon the number of days between the start date and the end date for which the service was funded during the fiscal year.

Average Length of Stay (Number of Days) by Residential Care Setting

	FY09	FY10	FY11
Temporary Care Facility	84	131	82
Group Home	185	176	171
Residential Treatment Facility	173	170	166
TOTAL LENGTH OF STAY IN RESIDENTIAL PER YOUTH*	204	193	184

<sup>\*</sup>Reflects average number of days across all residential settings when youth was in more than one setting.

#### **Summary**

Since FY2009, all measures reflect decreased utilization of residential care for youth funded through the Comprehensive Services Act. The cost of residential care has decreased 31% and the number of youth served in residential settings has decreased 26%.
