

Systems of Care; A Framework for Collaboration

Anna Antell, LCSW
Lead Program Consultant
Office of Children's Services

Session Objectives:

- What is a System of Care?
- What are the principles and values of CSA as a System of Care?
- What is my role in the System of Care?

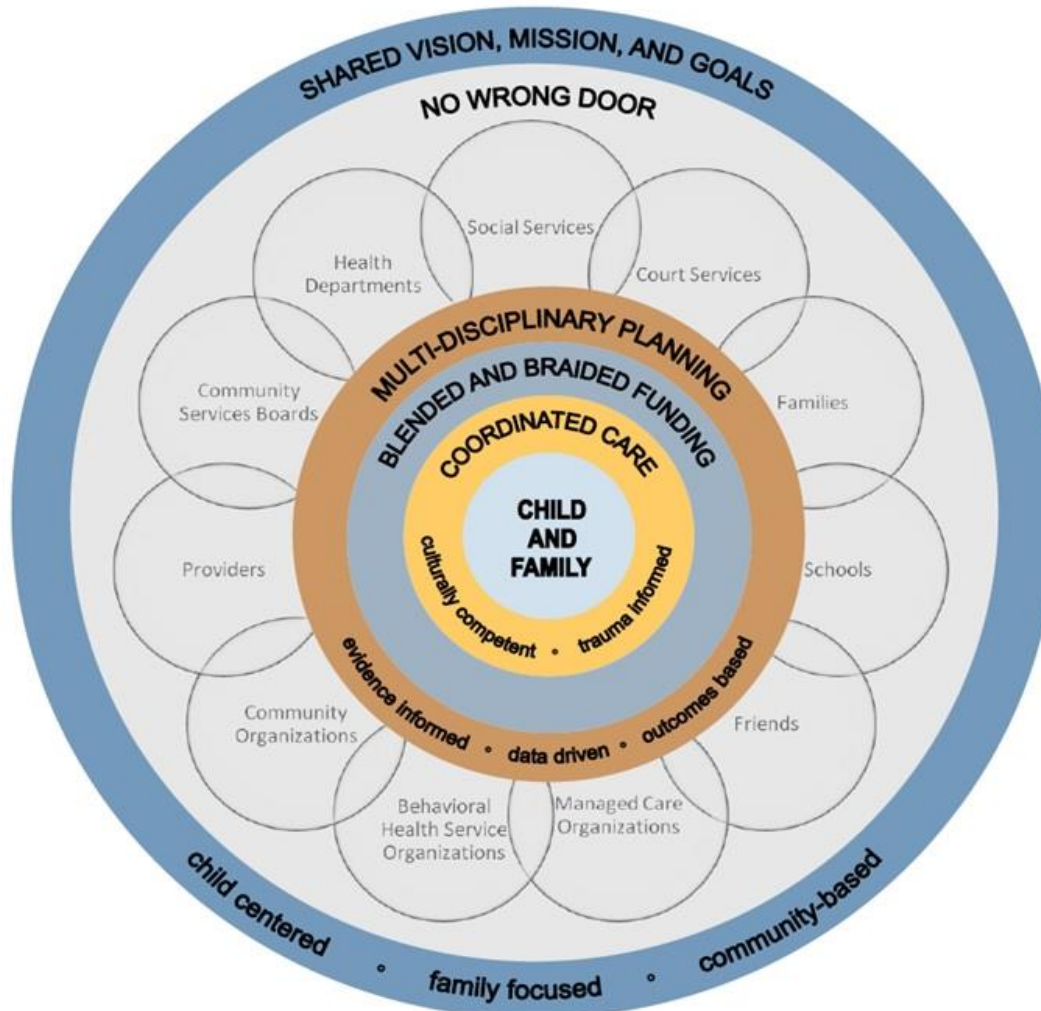

The CSA Mission (§2.2-5200, COV)

"... to create a collaborative system of services and funding that is

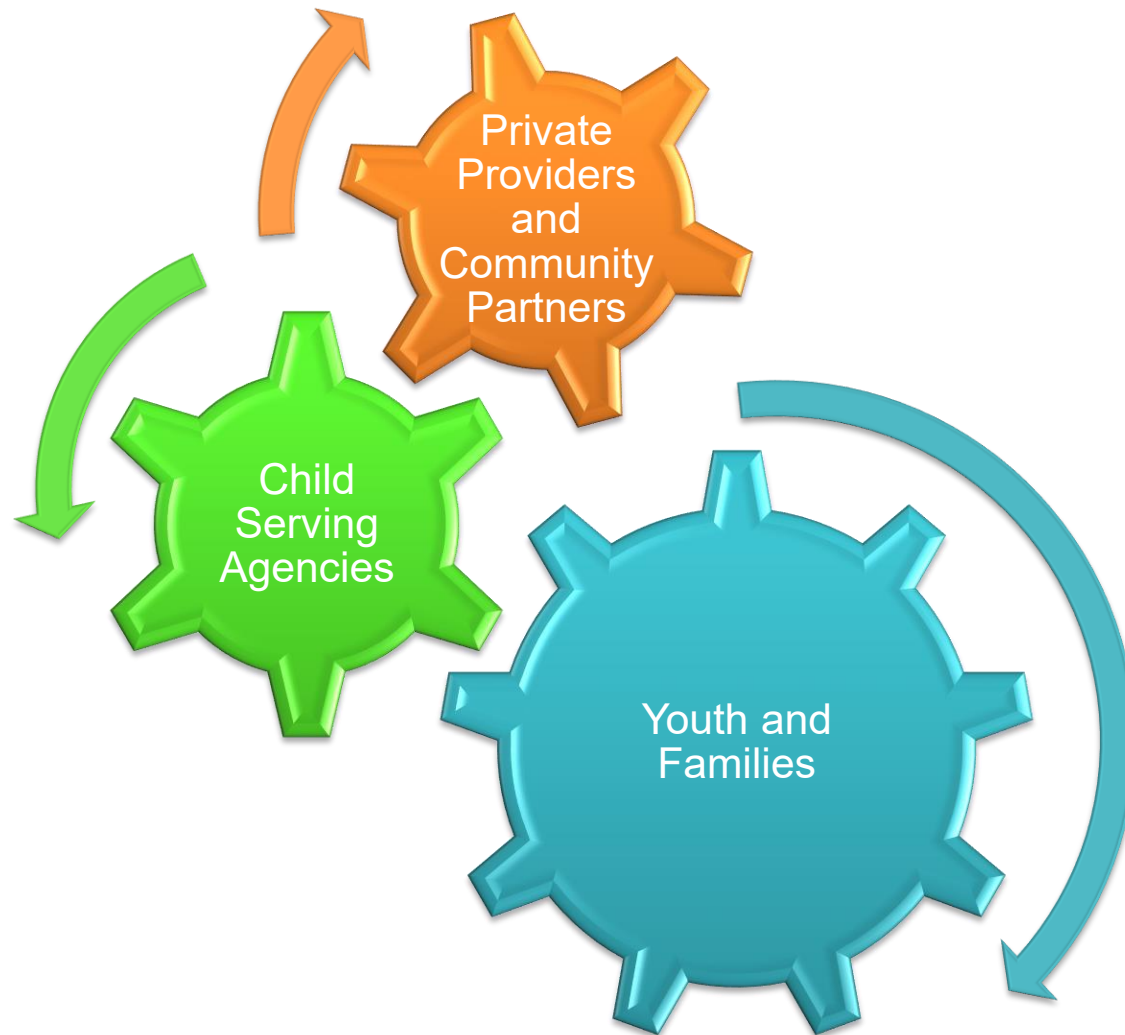

... when addressing the strengths and needs of troubled and at-risk youths and their families
... "

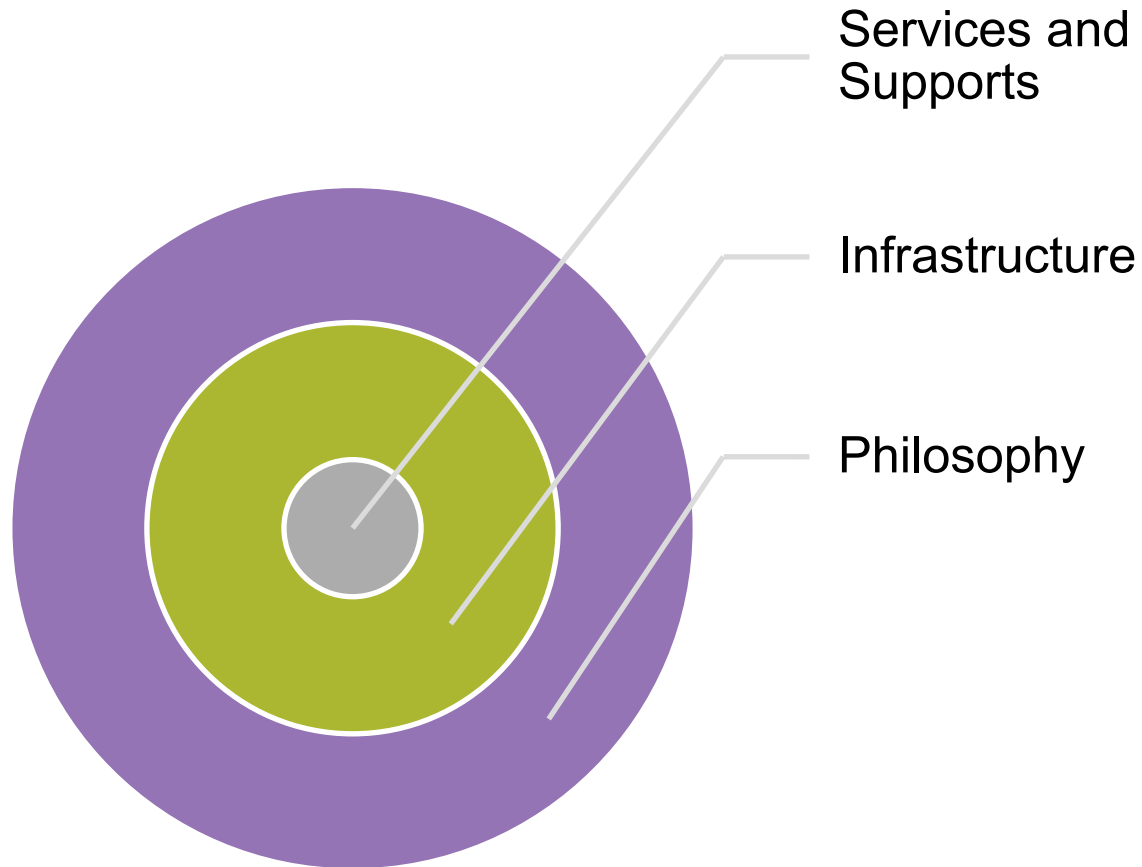

Virginia's Comprehensive System of Care

What is a System of Care?

System of Care Components

System of Care Principles

Shared Vision

No Wrong Door

Multidisciplinary Planning

Blended and Braided Funding

Coordinated Care

Child-Centered and Family Focus

Shared Vision

A shared belief across the Commonwealth that children deserve access to a coordinated array of critical services which will produce the best possible outcomes for them and their families. Each agency holds a piece of the service system and collaboration is the core for making it work.

No Wrong Door

At-risk youth and families have access to funding and services regardless of how they come to the attention of those responsible for serving them. Creates one access point to planning and funding access.

Multidisciplinary Planning

There is collaboration and cooperation in the planning for youth and families to address diverse and complex needs without limitations that might otherwise be imposed by operating within the parameters of individual agencies

Blended and Braided Funding

Financial structure encourages effective and efficient use of all available resources and maximization of federal funding streams. Access to available funding resources is available in one place and through one mechanism

Coordinated Care

Effective individualized care planning and management processes address the unique strengths and needs of children and families holistically, value and respect family and youth input, deliver care in the family setting, and care for families in the context of their communities.

Child Centered and Family Focused

- Doing **With** Youth and Families
