

Results of the FY2023 CSA Service Gap Survey

Overview

- Background of the Service Gap Survey
- Statewide Service Gaps
- Regional Service Gaps
- Barriers
- Changes in Community Service Capacity
- Conclusions

Background of the CSA Service Gap Survey

- One primary responsibility of the Community Policy and Management Team (CPMT) is to coordinate long-range, community-wide planning to develop resources and services needed by children and families in the community (§2.2-5206).
- The 2006 Virginia General Assembly amended the Code of Virginia to further specify this requirement. On an annual basis, the CPMT shall report to the Office of Children's Services (OCS) on gaps and barriers in services needed to keep children in the local community (§2.2-5211.1.2).
- This report marks the 15th year that OCS has collected data on service gaps, barriers to filling these gaps, and local efforts to overcome the barriers.

Methodology

- CPMT Chairs and CSA Coordinators received an OCS Administrative Memo with a link to an automated Survey Monkey survey on March 31, 2023
- The survey closed on June 2, 2023
- One submission was permitted per locality (some localities filed jointly under one CPMT)
- 103 CSA localities responded out of 127 possible, a response rate of 81% (down from the FY2021 response rate of 83%)
- VDSS geographic regions were utilized to group localities

Service Groupings

Residential Services

Short-term Diagnostic
 Group Home

Elementary School Age (6-10)
Middle School Age (11-13)
High School Age (14-18)
Transition Age (19-21)

Reported Gaps: Most Prevalent Types of Service

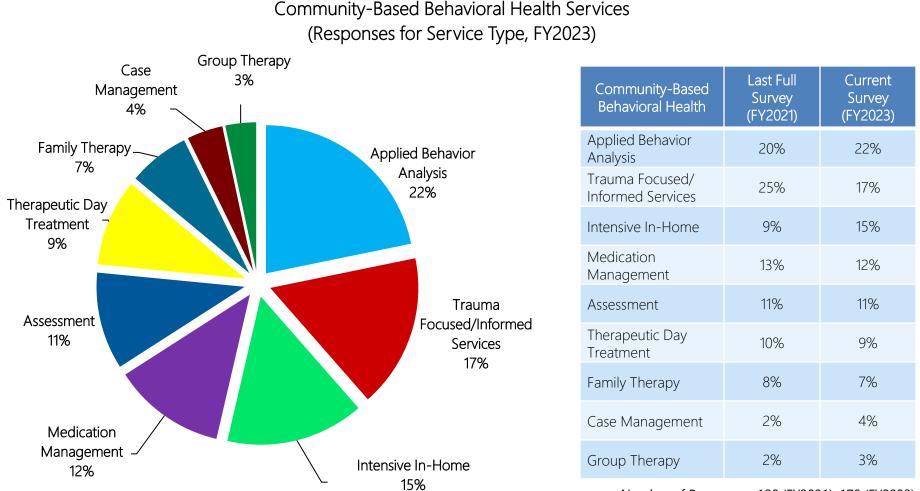

<u>Note</u>: If a locality selected at least one critical service gap within the service type groups displayed above, they were counted for this measure. The number of responding localities represents the count of localities that submitted survey responses; bar chart values represent the percentage of responding localities with a critical gap identified for that service type.

Number of Responding Localities: 103

Statewide: Gaps for Top-Reported Service Type

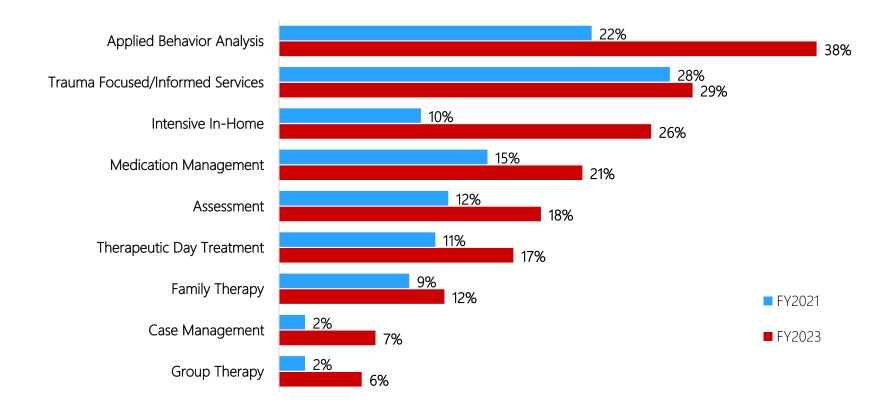

Number of Responses: 120 (FY2021); 178 (FY2023)

Statewide: Percentage of Localities with Gap (Community-Based Behavioral Health)

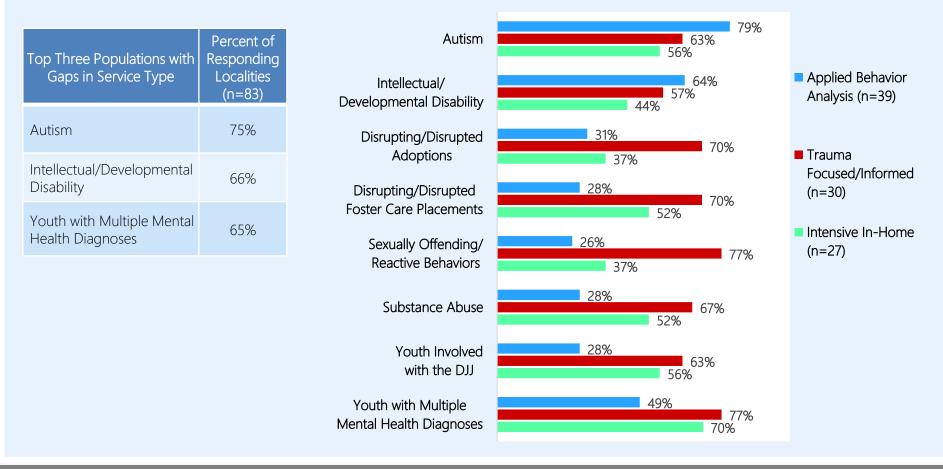

Percentage of Localities Reporting Service as Critical Gap (Community-Based Behavioral Health)

Populations with Gaps in Community-Based Behavioral Health Services: Statewide

Lack of Access for Populations in Localities Reporting Top Service Gaps (Community-Based BH)

Impact of Barrier on the Ability to Develop Services: "Provider Availability"

Indicate the level of impact Provider Availability had on your community's ability to develop the services that you have identified: 3.0% 5.1% 4.0% <u>1 -</u> "Not At All" 2 13.1% 3 4 **Statewide** 5 - "A Great Deal" Average: 74.7% 4.5 Average Ratings, by Region 4.3 4.7 4.2 4.3 5.0 Northern Piedmont Central Eastern Western

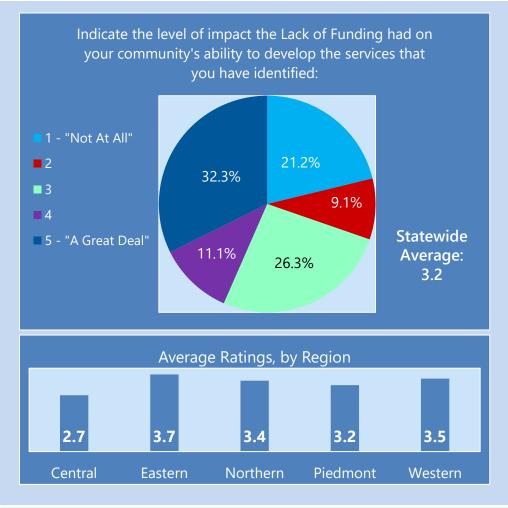

Impact of Barrier on the Ability to Develop Services: "Lack of Transportation"

Indicate the level of impact the Lack of Transportation had on your community's ability to develop the services that you have identified: 11.1% <u>1 -</u> "Not At All" 2 11.1% 40.4% 3 4 15.2% **Statewide** 5 - "A Great Deal" Average: 22.2% 3.7 Average Ratings, by Region 3.5 3.7 3.8 3.8 3.9 Northern Piedmont Western Central Eastern

Impact of Barrier on the Ability to Develop Services: "Lack of Funding"

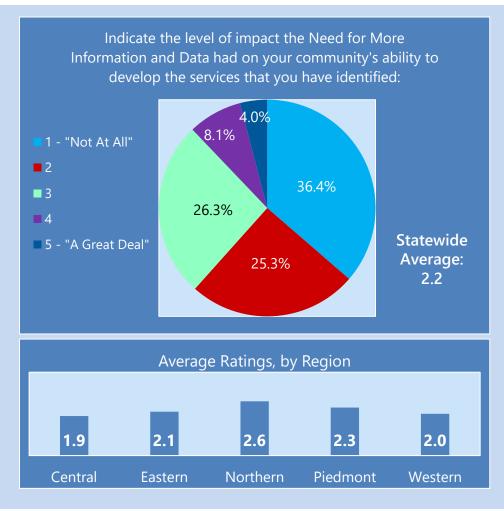

Impact of Barrier on the Ability to Develop Services: "Need For Collaboration and Consensus"

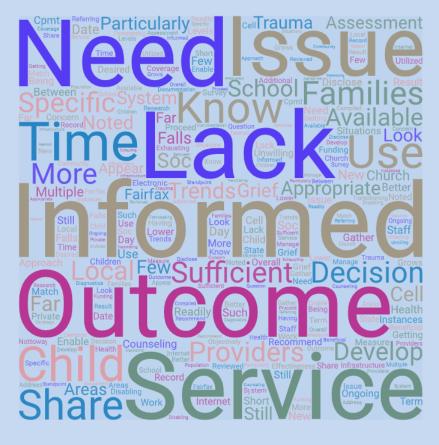

Indicate the level of impact the Need For Collaboration and Consensus had on your community's ability to develop the services that you have identified: 6.1% 1 - "Not At All" 15.2% 2 37.4% 3 4 20.2% **Statewide** 5 - "A Great Deal" Average: 21.2% 2.3 Average Ratings, by Region 1.7 2.0 2.0 3.0 3.0 Northern Piedmont Central Eastern Western

Impact of Barrier on the Ability to Develop Services: *"Need for More Information and Data"*

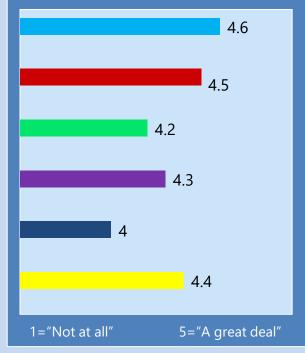

Impact of Barrier on the Ability to Develop Services: "Other Barriers"

Shortages

Internet

Other*

Indicate the level of impact the Other Barriers had on your community's ability to develop the services the you have identified (% of responses):

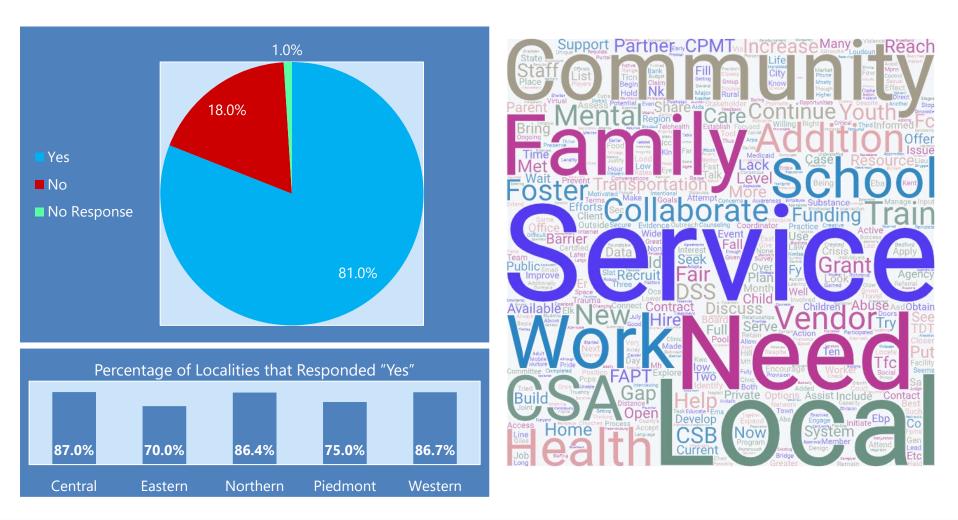

Prevalence Among "Other Barriers" Responses Workforce Training and Culturally Appropriate, **Multi-lingual Resources** COVID Effect, Younger Mental Health Issues Family Engagement

Note: 61 Other Barriers were offered by 58 localities

* Other responses included Housing, Medicaid dentistry, socioeconomic issues such as High Poverty and Low Educational Attainment, and Attachment-Focused Training

Has your locality initiated actions over the past year to address the perceived service barriers?

Conclusions

- Gaps in Community-Based Behavioral Services were the most prevalent statewide and in 3 out of 5 regions.
- In FY2021, Family Foster Care Homes was selected as the top individual service gap in the Commonwealth, out of 31 identified. This year, Crisis Intervention and/or Crisis Stabilization is the top individual service gap and Family Foster Care Homes is second.
- Crisis Intervention and/or Crisis Stabilization and Applied Behavior Analysis were in the top three most prevalent individual services for 3 out of 5 regions.
- Autism was the top population affected by at least one service gap statewide (identified by 89 localities, or 86%). This was higher than last year's top population of Youth with Multiple Mental Health Diagnoses (identified by 85% of responding localities this year).

Conclusions (continued)

- High School Age children (14 18) were the age group selected most often statewide, and in every region. This was the same as FY2021 results.
- Barriers Weighted by Ranking in Order from Highest to Lowest
 - Provider Availability
 - Lack of Transportation
 - Lack of Funding
 - Need for Collaboration and Consensus
 - Need More information and Data
- Over 80% of localities initiated actions over the past year to address these perceived barriers.
