ADMINISTERING THE CHILDREN'S SERVICES ACT

The Children's Services Act (CSA, §2.2-2648 et seq) was enacted in 1993 to create a collaborative system of services and funding for atrisk youth and families.

The CSA establishes local multidisciplinary teams responsible to work with families to plan services according to each child's unique strengths and needs and to administer the community's CSA activities.

The Office of Children's Services (OCS) is the administrative entity responsible for ensuring effective and efficient implementation of the CSA across the Commonwealth.

Guiding principles for OCS include:

- Child and family directed care,
- Equitable access to quality services.
- Responsible and effective use of public funds,
- Support for effective, evidence-based practices, and
- Collaborative partnerships across state, local, public, and private stakeholders.

TREATMENT FOSTER CARE SERVICES UNDER THE CSA

Annual Report to the General Assembly, December 2021 In accordance with the Appropriation Act, Chapter 552, Item 292 (K)(1)

Treatment foster care (TFC) is a community-based program that addresses children's special needs while in the custody of a local department of social services. Foster parents trained, supervised, and supported by a private agency (licensed child-placing agency, or LCPA) provide TFC. TFC is family-based, goal-directed, results-oriented, and emphasizes permanency planning for the child in care. Total TFC costs may be offset partially by federal/state title IV-E revenues for eligible children in foster care. Title IV-E revenues and payments are handled through the Department of Social Services.

Total CSA Expenditures - Treatment Foster Care (FY2017 - FY2021)

Number of Youth Served - Treatment Foster Care (FY2017 - FY2021)

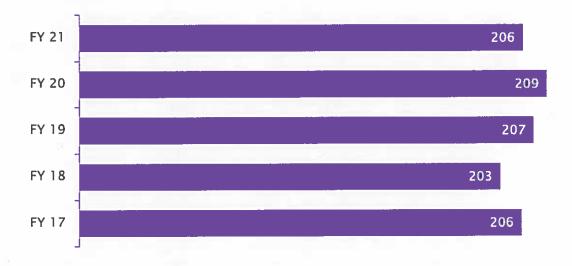

Average Annual CSA Expenditure per Child - Treatment Foster Care (FY2017 - FY2021)

(Includes Foster Care Maintenance Costs)

Average Length of Stay (Number of Days/Year) - Treatment Foster Care (FY2017 - FY2021)

Discussion

In FY2021, utilization of treatment (also known as therapeutic) foster care (TFC) decreased slightly from the prior year. TFC remains a primary resource for foster care placements in Virginia, reflecting ongoing challenges in local DSS agencies' ability to establish "agency foster homes" (foster families recruited and supported by the local department). Approximately 55% of children in foster care are placed in a TFC arrangement through a licensed child-placing agency (LCPA). LCPAs are private agencies that, among other services, provide for foster home placements through referrals from the local DSS. In FY2021, a TFC placement (exclusive of monthly maintenance and enhanced maintenance payments) averaged \$108 per day or approximately \$22,000 per year. While foster care maintenance costs may be supported by CSA pool funds or the federal title IV-E program, TFC-specific costs (CSA Service Name = "Private Foster Care, Support, Supervision, and Administration") are paid exclusively from CSA state pool and local matching funds.

ADMINISTERING THE CHILDREN'S SERVICES ACT

The Children's Services Act (CSA, §2.2-2648 et seq) was enacted in 1993 to create a collaborative system of services and funding for atrisk youth and families.

The CSA establishes local multidisciplinary teams responsible to work with families to plan services according to each child's unique strengths and needs and to administer the community's CSA activities.

The Office of Children's Services (OCS) is the administrative entity responsible for ensuring effective and efficient implementation of the CSA across the Commonwealth.

Guiding principles for OCS include:

- Child and family directed care.
- Equitable access to quality services.
- Responsible and effective use of public funds,
- Support for effective, evidence-based practices, and
- Collaborative partnerships across state, local, public, and private stakeholders.

IMPACT OF TIERED MATCH RATES FOR CSA

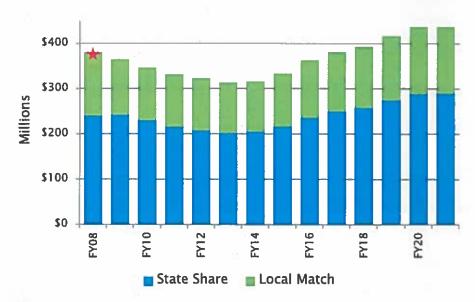

Annual Report to the Governor and General Assembly, December 2021 In accordance with the Appropriation Act Chapter 552 Item 292 (C)(3)(c)

As established in the Appropriation Act, funding for services to children and families through the Children's Services Act (CSA) is a shared responsibility of state and local government. Effective July 1, 2008, the General Assembly implemented a three-tiered, "incentive-based" local match rate model to encourage reduced utilization of residential care, increase children served in their homes, and investment in community-based services. This policy-driven match rate model promotes the delivery of services consistent with the statutory purposes of the CSA (see § 2.2-5200, Code of Virginia) to:

- · preserve and strengthen families;
- design and provide services that are responsive to the unique and diverse strengths and needs of troubled youth and families; and
- provide appropriate services in the least restrictive environment, while protecting the welfare of children and maintaining the safety of the public.

Before 2008, CSA utilized a single, unique base match rate for each locality. Under the tiered ("incentive") model, the local match rate for residential services is 25% above its base match rate, and for community-based services, 50% below its base match rate. Designated services (foster care and special education) remain at the base match rate. Local base match rates range from 16.98% to 53.09%. The average local base match rate is 32.99%.

Total Net Expenditures for the Children's Services Act

implementation of the tiered, "incentive" match rate model

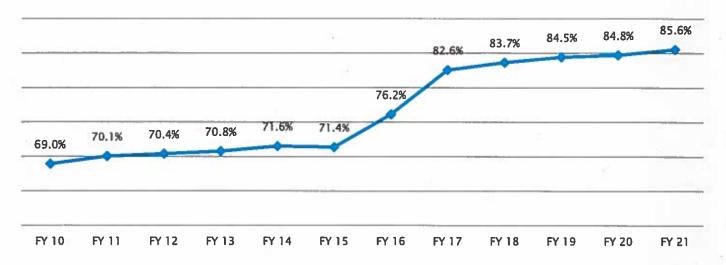

Effective (Actual) Match Rates (Statewide Average)

| | FY1.2 | FY13 | FY14 | FY15 | FY16 | FY17 | FY18_ | FY19 | FY20 | FY21 |
|-----------------|---------|---------|---------|--------|---------|---------|---------|---------|--------|--------|
| Effective Local | 35 50/ | 25.20/ | 3.4.00/ | 24 00/ | 3.4.00/ | 3.4.40/ | 7.4.20/ | 3.4.00/ | 34.00/ | 22.00 |
| Match Rate | 35.5% | 35.3% | 34.9% | 34.9% | 34.8% | 34.4% | 34.3% | 34.0% | 34.0% | 33.8% |
| Effective State | C 4 F0/ | C 4 70/ | CE 10/ | CE 10/ | 65.30/ | CE 504 | CE 70/ | 5 C ON | 66.004 | 66.204 |
| Match Rate | 64.5% | 64.7% | 65.1% | 65.1% | 65.2% | 65.6% | 65.7% | 66.0% | 66.0% | 66.2% |

The "effective" match rate reflects the impact of the mix of services at the various tiered match rates on the overall match rate for all funded services.

Impact of the Tiered ("Incentive") Match Rate Model

Percent of Youth Served Only in Community-Based Settings (FY2010 - FY2021)

The chart above reflects the percentage of youth in the total CSA census for the year served <u>only</u> within their family and communities (i.e., have not required a congregate-care placement). The chart below shows expenditures for residential placements.

CSA Congregate-Care Expenditures (Millions) (FY2015 - FY2021)

Discussion

The intention of the tiered match rate model was two-fold. The first was to employ fiscal incentives to discourage the placement of children into restrictive, residential (congregate care) treatment settings when it was possible to safely utilize alternative, non-residential services that would adequately address the needs of the child, family, and community. The chart *Impact of the Tiered ("Incentive") Match Rate Model (FY2010 - FY 2021)* illustrates that this goal has been increasingly realized. Over the period shown, there has been a 16.6 percent increase in the proportion of children served through the Children's Services Act who did not experience any congregate care placements during the reporting year. Residential placements are typically among the more costly services funded through the CSA (second to private day special education placements). The tiered match rate system's associated goal was to control CSA expenditures that, at the time (FY2008), had grown to their highest historical point. In the years immediately following the tiered match rates' implementation, overall CSA expenditures did fall significantly. It is impossible to attribute this decrease directly to the match rate model, as this period coincided with the significant economic recession. In FY2015, this trend reversed with overall CSA annual expenditures rising, as shown in the chart *Total Net Expenditures for the Children's Services Act*. However, in contrast to the general expenditure trend, beginning with FY2017 and continuing through FY2021, CSA residential expenditures declined at a noticeable rate, despite a temporary uptick in FY2020.

While the "effective" (actual) state (vs. local) match rate is higher than the base rate, the match rate ratio has been virtually unchanged for several years. The effective local match has not declined further due to the significant rise in costs (and overall share of total CSA expenditures) associated with private special education day placements. Such educational placements are not subject to an incentive or disincentive through the tiered match rate model, creating less variability in the effective state vs. local match rates. Using fiscal incentives to impact special education placements is not permissible under the federal Individuals with Disabilities Education Act (IDEA).

Within its limits, the tiered match rate model appears to have achieved its goal of increasing the utilization of community-based versus congregate care services with an associated overall decrease in costs for services potentially impacted by the model.

ADMINISTERING THE CHILDREN'S SERVICES ACT

The Children's Services Act (CSA, §2.2-2648 et seq) was enacted in 1993 to create a collaborative system of services and funding for atrisk youth and families.

The CSA establishes local multidisciplinary teams responsible to work with families to plan services according to each child's unique strengths and needs and to administer the community's CSA activities.

The Office of Children's Services (OCS) is the administrative entity responsible for ensuring effective and efficient implementation of the CSA across the Commonwealth.

Guiding principles for OCS include:

- Child and family directed care,
- Equitable access to quality services,
- Responsible and effective use of public funds,
- Support for effective, evidence-based practices, and
- Collaborative partnerships across state, local, public, and private stakeholders.

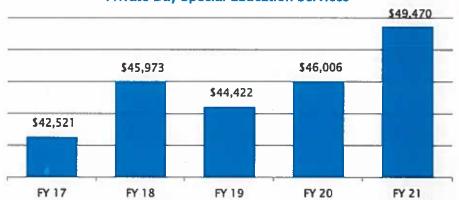

PRIVATE SPECIAL EDUCATION SERVICES UNDER THE CSA

Annual Report to the General Assembly, December 2021
In accordance with the Appropriation Act Chapter 552, Item 292 (K)(2)

Children and youth with educational disabilities placed due to the student's Individualized Education Programs (IEP) in approved private school educational programs are in the CSA target population. They are eligible for funding as specified in the *Code of Virginia*, §§2.2-5211-2.2-5212).

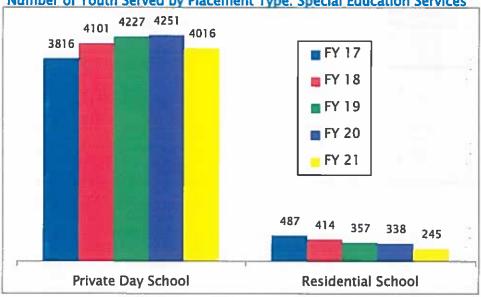

Average Annual CSA Expenditure Per Child (FY2017 - 2021) Private Day Special Education Services

Net CSA Expenditures by Placement Type - Special Education Services

| 10 | FY2019 | FY2020 | FY2021 |
|----------------------------|----------------|----------------|----------------|
| Private Day School | \$ 185,866,635 | \$ 193.404,469 | \$ 197,281,992 |
| Private Residential School | \$ 11,720,397 | \$ 12,004,699 | \$9,255,269 |
| Total | \$ 197,154,732 | \$ 205,409,168 | \$ 206,537,261 |

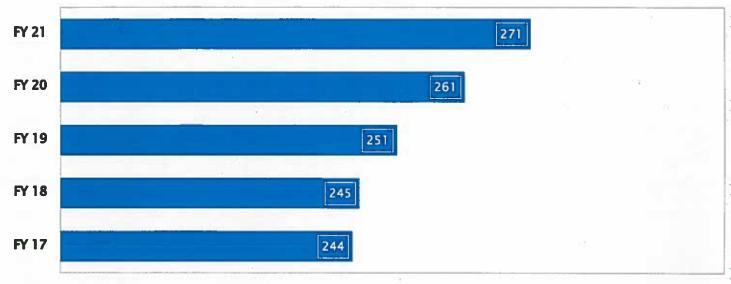

Number of Youth Served by Placement Type: Special Education Services

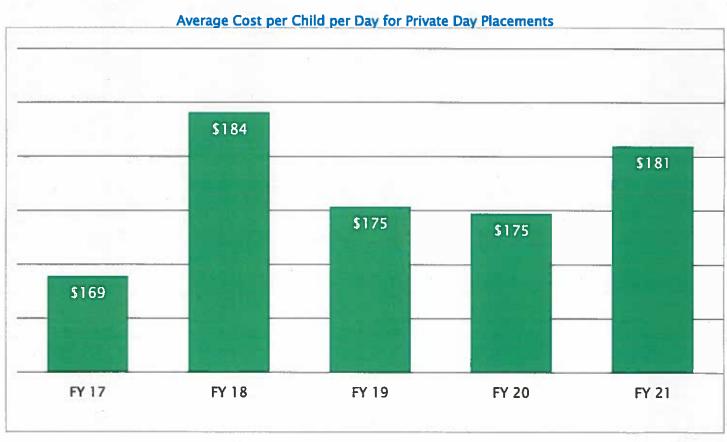

FY2021 unduplicated count of youth who received services resulting from an individualized Education Program (IEP) requiring private school placement = 4,175

Private Special Education Services Funded under the Children's Services Act

Average Length of Stay (Number of Days per Year) for Private Day Placements

Discussion

The growth in private special education placements, especially private day schools, has received extensive attention over the past several years. Children's Services Act (CSA) expenditures for private day special education placements account for 77% of overall CSA growth (combined state and local expenditures) from FY2015 – FY2021. The number of students served in such placements over this period, required by their Individualized Education Programs (IEP), rose 24% (3,416 to 4,251 in FY2020). There was a slight decrease in FY2021 (4,016 or –5.5%), most likely due to the impact of the COVID–19 pandemic. The pandemic complicates understanding utilization and expenditure patterns in FY2021. While the number of youth served has decreased, overall and per–student expenditures showed modest growth. The increased annual cost per student is likely due to expanded extended school year (ESY) services and/or ancillary services (e.g., speech/language/occupational therapies) provided in compensation for lost educational time due to the pandemic.

In November 2020, the Joint Legislative Audit and Review Committee (JLARC) released its report on the CSA, with a specific focus on private day special education. JLARC made numerous recommendations, including:

- Allow CSA funds to pay for special education services and supports delivered in the public school setting to
 prevent children from being placed in more restrictive settings or to transition back to public school from more
 restrictive settings.
- Transfer administration of funding for special education private day programs, required by a student's IEP, to the
 Virginia Department of Education.
- Providers of private day special education programs should be required to annually report on their costs and revenues to provide transparency in the expenditure of public dollars.
- The Department of Education should annually collect and publish performance data on private day schools similar to or the same data collected and published for public schools.
- The Board of Education should develop and promulgate new regulations on seclusion and restraint in private day schools that mirror those for public schools.

The 2021 Session of the General Assembly took action on several of these recommendations in SB1313 and HB2117. A workgroup established by the enactment clause of those bills has been meeting to address many of these recommendations. A preliminary report was issued on November 1, 2021, and the final report is due in November 2022. The legislation added CSA funding for specified transitional services to assist with the successful return of students from private day to public school settings. These new services were made available to localities on July 1, 2021. Data is being collected to determine the number of students served and whether they can successfully transition back to the public school.

The Office of Children's Services is finalizing a uniform rate setting study and process for private day special education programs as directed by the General Assembly. These rates will be implemented effective FY2023.

ADMINISTERING THE CHILDREN'S SERVICES ACT

The Children's Services Act (CSA, §2.2-5200 et seq) was enacted in 1993 to create a collaborative system of services and funding for atrisk youth and families.

The CSA establishes local multidisciplinary teams responsible to work with families to plan services according to each child's unique strengths and needs and to administer the community's CSA activities.

The Office of Children's Services (OCS) is the administrative entity responsible for ensuring effective and efficient implementation of the CSA across the Commonwealth.

Guiding principles for OCS include:

- Child and family directed care.
- Equitable access to quality services,
- Responsible and effective use of public funds,
- Support for effective, evidence-based practices, and
- Collaborative partnerships across state, local, public, and private stakeholders.

REGIONAL AND STATEWIDE TRAINING REGARDING CSA

Annual Report to the General Assembly, December 2021 In accordance with the 2021 Appropriation Act Chapter 552 Item 292 (B)(6)

The mission of the Office of Children's Services (OCS) is to facilitate a collaborative system of services and funding that is child-centered, family-focused, and community-based when addressing the strengths and needs of youth and their families in the Commonwealth of Virginia. To support this mission, OCS annually develops and implements a robust training plan. In light of ther pongpoing COVD-19 pandemic, implementation of the FY2021 training plan saw the movement of all planned in-person training events to virtual delivery platifrms. In most instances, this required significant reconceptualization and rededsign of curriculum and instructional strategies.

Noteworthy this year was the series of three evidence-based practices readiness events for local child-serving teams, coordinated by OCS and with faculty from the National Implementation Research Network (NIRN), these events were planned and supported with both staff and financial resources by agencies from three cabinet secretariats (OCS, DBHDS, DSS, DMAS, DJJ, and DOE). This unique collaborative approach is reflective of the true spirit of the Children's Services Act. Seven hundred local participants from all child serving agencies and other partners gathered virtually in local/regional teams to build knowledge and local readiness to support the Copmmonwealth's efforts to improve outcomes for children and families through the use of effective interventions.

In accordance with the FY2021 training plan, the following activities were implemented:

- Thirty-eight (38) regional and stakeholder training sessions were provided to 3,678 (non-unique) participants. Training topics, dates, and participant numbers are summarized on pages 2 through 4 of this report. The planned biennial statewide High Fidelity Wraparound Conference was cancelled and cold not be rescheduled.
- Seventeen (17) on-line training courses were offered through the Virginia Learning Center and the Praed Foundation CANS (Child and Adolescent Needs and Strengths) training site, with a total enrollment of 5,307 (non-unique) participants.
- The annual CSA Conference attracted almost 1,00 individuals. The virtual delivery provided at no-cost to participants represented a significant growth in number of attendees over prior in-person annual Conferences. Evalutions indicated advantages of virtual delivery (e.g., lower cost of attendance allowing greter participation, reduction in need for travel) along with disadvantages (e.g., lack of tradition in-person networking opportunities and fewer breakout sessions).
- On-line "OCS Help Desk" was maintained with approximately 600 individual requests answered. A singnificant number of unlogged responsesd were provided to localities concerning adaptations to the COVD-19 pandemic, including changes to Family Assessment and Planning Team (FAPT) and Community Policy and Management Team (CPMT) meetings.

Funds Expended for Regional and Statewide Training*

| Annual Conference and CSA Coordinator Pre-Conference | \$ 42,184 |
|---|-----------|
| On-line Training/Certification: Uniform Assessment Instrument | \$ 27,000 |
| Evidence Based Practices Readiness Training for Local Teams | \$ 22,280 |
| Diversity, Equity, and Inclusion Training for OCS Staff | \$ 15,000 |
| E-learning Course Development | \$ 1,748 |
| Go-to-Meeting / Go-To-Webinar Subscription | \$ 1,200 |
| TOTAL* | \$109,412 |

^{*}Funds include those allocated explicitly in the Appropriation Act (as well as additional funds from the CSA administrative budget).

ADMINISTERING THE CHILDREN'S SERVICES ACT

The Children's Services Act (CSA, §2.2-2648 et seq) was enacted in 1993 to create a collaborative system of services and funding for atrisk youth and families.

The CSA establishes local multidisciplinary teams responsible to work with families to plan services according to each child's unique strengths and needs and to administer the community's CSA activities.

The Office of Children's Services (OCS) is the administrative entity responsible for ensuring effective and efficient implementation of the CSA across the Commonwealth.

Guiding principles for OCS include:

- Child and family directed care,
- Equitable access to quality services,
- Responsible and effective use of public funds,
- Support for effective, evidence-based practices, and
- Collaborative partnerships across state, local, public, and private stakeholders.

UTILIZATION OF RESIDENTIAL CARE UNDER THE CSA

Annual Report to the Governor and General Assembly, December 2021
In accordance with the Appropriation Act Chapter 552 Item 292 (B)(2)(d)

Residential (or congregate care) is the most intensive setting to meet the needs of children and youth with high levels of need due to psychiatric, emotional, and behavioral problems. Historically, there has been concern about the "overuse" of such settings. Models such as the "system of care," which is the foundation of the Children's Services Act, establish a preference for treating youth in the context of their families and communities. Over the years, several strategies have been implemented to decrease children and youth placed in residential care settings. These strategies included implementing the Children's Services System Transformation initiative, a tiered, "incentive" match rate system in CSA designed to encourage serving children and youth in community-based settings, and the transition by Medicaid to a managed care approach to these services. FY2020 continued, the steady downward trend in the number of children served in residential care continued (overall decrease of 18% from FY2018). The total CSA cost of these services increased by 8.5%. The number of youth in psychiatric residential treatment placements (PRTF) decreased by 19%. Group home (GH) placements decreased by 14%. Placements for the most challenging youth continue to be a concern for CSA and its partner agencies (VDSS, DBHDS, DMAS) and concern over the need for more costly out-of-state placements (often not eligible for Medicaid reimbursement) have been an issue of considerable attention.

Total CSA Expenditures for Residential Care (FY2018 – FY2021)

| = | FY2018 | FY2019 | FY2020 | FY2021 |
|--------------------------------|---------------|---------------|---------------|--------------|
| Temporary Care Facility | 788,814 | 494,708 | 503,252 | 122,124 |
| Group Home | 13, 973,621 | 14,549,379 | 16,472,475 | 15,115,258 |
| Residential Treatment Facility | 62,705,107 | 57,418,781 | 59,409,876 | 55,631,447 |
| TOTALS | \$ 77,467,542 | \$ 72,462,868 | \$ 76,385,603 | \$70,868,830 |

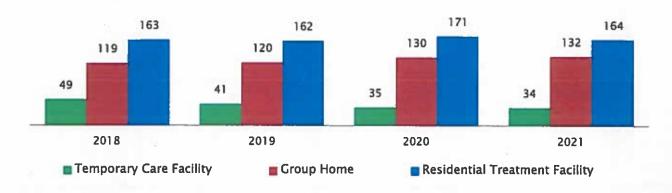

Note: Amounts do not include Title IV-E and Medicald expenditures.

Number of Youth Served through CSA in Residential Care (FY2018 - FY2021)

| | FY2018 | FY2019 | FY2020 | FY2021 |
|--------------------------------|--------|--------|--------|--------|
| Temporary Care Facility | 93 | 56 | 49 | 21 |
| Group Home | 727 | 726 | 716 | 622 |
| Residential Treatment Facility | 2,176 | 2,037 | 1,901 | 1,764 |
| Unduplicated Total | 2,568 | 2,424 | 2,323 | 2,103 |

The total reflects the unduplicated number of youth across all residential settings and excludes those placed for special education.

Average Length of Stay (Days) per Youth in Residential Care (FY2018 - FY2021)

Note: Reflects the average number of days per youth within the fiscal year.
